# ISPN Annual Conference 2026

## The Global Spine and Pain Revolution

ISPN Annual Conference will take place 20-22 October, 2026 at the Movenpick Hotel Amsterdam

Dear Colleagues,

We are excited to announce that the next International Society of Pain and Neuroscience will be held in Amsterdam, the capital city of the Netherlands, 22-24 October 2026. The theme of this year's conference is the Global Spine and Pain Revolution and we are excited to delve into this theme and how this Revolution can improve patient care and treatment outcomes.

The ISPN society continues the core mission of its parent society, ASPN: to improve education, highlight scientific curiosity, establish best practices, and elevate each other in a quest to advance the field.

Without good scientific evidence, without perfect guidelines, without collaboration any medical specialty would fail to give the patients the best treatment. Our mission is to offer chronic pain patients the best available treatment every day.

In this meeting we will educate and discuss the different options that we have available for our patients based on the best evidence. The course will consist of lectures and panels where we will discuss, together with the audience, what the current standard of treatment is for best practices.

This four-day event will feature renowned U.S. and international key opinion leaders in pain and neuroscience.

### **Attendees will experience:**

- **Friday and Saturday (October 23 & 24): Plenary Sessions on cutting-edge updates and discussions in pain and neuroscience**
- **Unique Opportunities for networking and open discussion throughout the event**

We are thrilled to expand our reach to the international community and look forward to seeing you all in Amsterdam!
